

Tom Suarez Photography
830-613-0136

At Tom Suarez Photography unlike many photographers I do not force you to buy the “gold”, “silver”, or “platinum” package. My rates are very competitive and I can build you any package you need and that fits in your budget. Do not pay for something you do not want.

Why should you hire me:

1. 20 years experience
2. Have covered hundreds of events.
3. I only use professional equipment to ensure the best photos possible
4. I have several camera bodies and lens for back up in case of an equipment failure. (Many photographers only have 1 body and if it fails you are out of luck). A list of my equipment is available on request.
5. My prints come from a professional lab and are not ink jet prints. All photos will be color corrected and enhanced by a pro lab and printed on archival paper to last for a lifetime.
6. You get an online gallery of all photos for family and friends to order at reduced prices.

What I Shoot: Weddings, Portraits, Sports, Commercial, Product, Events, Parties, Senior Portraits, and just about anything you can think of.

Where I Shoot: I can shoot in my studio located at 503 Bessemer or any location of your choice.

Before you entrust your next event to a photographer be sure and check out the photographer questionnaire on my site. Feel free to print it out and have them fill it out for comparison. You might be surprised. If you like I can email you a copy.

Call me for a free consultation about your next event. 830-613-0136
